

# Web and Distributed Programming

Instructor: Eric Pogue

Session: 11

## Agenda:

1. Friendly Conversation & Good Natured Banter... "MEAN vs. LAMP"
2. Review Assignments
3. JavaScript Basics (continued)
4. Assignments and Pre-lab Wrap-up
5. Week 4 Lab: Course Schedule with (external) CSS

Discussion & Questions welcome at any time... please be present with no phones or email during our discussion time

## New Terminology:

Deploy: Put the assignment / product into an environment... nearly all commercial applications have at least three environment including development, test, and production

Release: Provide access to a group of users

## Assignment Due Today

### Assignment:

- Ch.4.7 to 4.10 of Sebesta

# JavaScript Basics

## Assignment for Friday

Assignment (before next class):

- Take Quiz 2 (first attempt)... final attempt is due next Wednesday
- Review Project 2... which is due a week from Monday (Oct 2)
- Complete Ch.4 of Sebesta

## Pre-Lab Wrap-up

### Wrap-up:

I need 1 or 2 (or 3) volunteers to present their implementation of Project 1 next week

Are the videos something that we should incorporate into our class regularly?

## Week 4 Lab: Course Schedule with (external) CSS

I have made the solution to our Week 3 lab available. My strong suggestion is to do your best on your own and using “normal” resources available to you (Web, classmates, etc.) and then use the solution as a last resort.

# End of Session

Course Number: CPSC-24700

Instructor: Eric Pogue
